the-winnicottian-child-care-and-treatment/](https://iwassociation.org/sino-brazilian-international-training-course-in-the-winnicottian-child-care-and-treatment/)**

This Course presents on an introductory level Winnicott's views about child-care and treatment. The theoretical lectures, to be held in the morning, will present 1) Winnicott's theory the maturational processes, 2) areas of the professional treatment (pediatrics, child psychiatry, psychiatric social work, maturational education) of blockages or distortions of this development (Winnicott's maturational pathology), 3) settings and procedures for treatment and application of his ideas to prevention, 4) Winnicott's clinical cases as illustrations these views. In the afternoon classes will be given supervisions of cases presented by participants.
