

**Intensive training course in China, Huilongguan Psychiatric Hospital, Beijing**

SINO-BRAZILIAN INTERNATIONAL TRAINING PROGRAM IN WINNICOTTIAN PSYCHOANALYSIS

PRESENTATION

The YIKANG MENTAL HEALTH CLINIC OF THE HUILONGGUAN HOSPITAL IN BEIJING and the BRAZILIAN SOCIETY OF WINNICOTTIAN PSYCHANALYSIS (SBPW), under the auspices of the INTERNATIONAL WINNICOTT ASSOCIATION (IWA), will begin a training program called “Sino-Brazilian International Training Program in Winnicottian Psychoanalysis” in Beijing from May 26 to 29, 2014.

The initial step towards creating this program was taken by Professor Z. Loparic, founder and president of the SBPW and the IWA, during his visit to the Yikang Mental Health Clinic at Beijing's Huilongguan Hospital in June 2013. On that occasion, Dr. Ling Sunang and Dr. Zhao Chengzhi, who work at Huilongguan Hospital in Beijing, described the situation of psychoanalytic therapy in China, explaining that there were many international training programs in psychoanalytic therapy, such as the Sino-German, Sino-Norwegian and Sino-British programs, among others, but that there was still a lack of training courses in Winnicottian psychoanalytic theory and therapy. For this reason, Professor Loparic decided to plan and prepare, in partnership with Dr. Ling and Dr. Zhao, a training program with the aim of disseminating Winnicott's psychoanalytic theory and practice and thereby increasing the level of theoretical and clinical studies of Chinese therapists and counsellors.

This training program will last three years, from 2014 to 2016, and will consist of morning and afternoon classes over five days, in May and November of each year. Next May's classes will be taught by professors Elsa Oliveira Dias and Z. Loparic.

Dr. Ling Sunang

Dr. Zhao Chengzhi

1. Basic Course

2. Advanced Course

3. Certificate
